

AIR SAMPLER

Model : 1200Y1

Introducing the latest high volume Air Sampler by Elementz, with advanced features and lightweight build. It provides cumulative flow rate, instantaneous flow rate and time elapsed on the OLED display. Automatic cut off based on cumulative flow rate or time variable whichever occurs first. Supports 4 inch diameter filter paper.

Features

1. 230 V, 50 Hz 1 Ph power supply
2. Flow rate limit of 1000 lpm
3. Weight less than 2.5 kg
4. Customisable speed control with pot
5. Inbuilt OLED display
6. Resolution of 1 lpm
7. ABS type casing and sturdy stand
8. OTA enabled for microcontroller code
9. Cumulative flow rate, flow rate on display

Device is easy to carry and install using stand on any terrain.
